

IntelliSite

hBM Kiosk Solution

Mobile temperature
detection solution.

SOLUTION BRIEF

hBM Kiosk Solution

The mobile temperature detection solution.

SOLUTION BRIEF

INDUSTRY CHALLENGES

The need to protect oneself and others from harmful viruses has never been greater. What's required today are accurate, fast and physically mobile solutions that:

- Protect patients, customers and employees
- Identify elevated body temperature in real-time
- Reduce virus spread from unknown carriers
- Implement autonomous screening systems and processes

SOLUTIONS OVERVIEW

IntelliSite human temperature scanning and monitoring solutions:

- IntelliSite's hBM Complete Solution enables calibration of the hBM system to a pre-set value or "Normal" (N) temperature, marking all human readings within a +/- 0.1 Celsius range off this predetermined N.
- IntelliSite's hBM Kiosk Solutions offers mobility, flexibility and economy for facilities who need it.

IntelliSite's hBM Kiosk Solution helps:

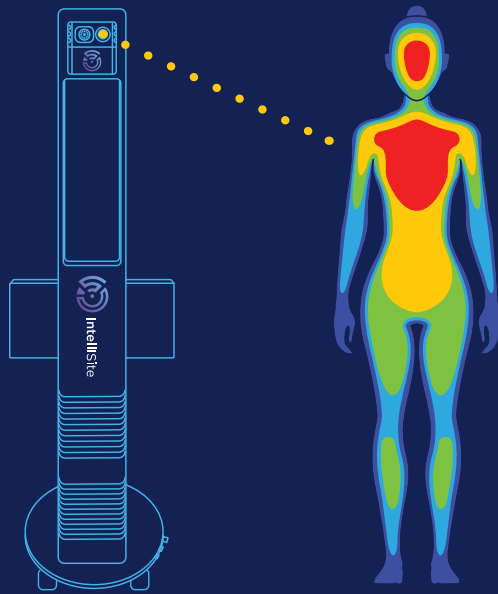

Identify High Risk Individuals - Real-time identification of human temperatures with IntelliSite's hBM Solution is intended to help organizations reduce mass exposure to high-risk immune-compromised individuals.*

Cloud-Based Remote Management - IntelliSite combine thermal cameras, and cloud-based management to recognize changes in individual temperatures to create actionable intelligence that matters at a time when it's needed most.

KEY FEATURES & BENEFITS

- Thermal temperature calibration that can detect elevated body temperature in real time, enabling immediate action if/when needed most
- Powered IoT Monitoring Platform to enhance accuracy and reduce human error
- Personalized portals where users can monitor activity and results, set alerts for real-time notification and responsiveness
- Turnkey solution with pre-tested configuration and complete installation service
- Managed service support and monitoring for ongoing management and maintenance

Detect elevated body temperature in real-time **

DeepLogic® cloud-based software

Ability to run on customer premises

POWERED BY

DeepVision AI

SOLUTION OUTLINE AND COMPONENTS

HARDWARE

- Thermal Camera
- Mobile Kiosk
- Black Body

CONNECTIVITY

- Cradlepoint Router
- LTE Service Optional
- Cloud-based Services

SOFTWARE

- Intellisite IoT Platform
- Intellisite DeepLogic® runs on any cloud or on-premise
- Easy Configuration and Deployment UI
- Alerts and Notification Panel
- Mobile Access and alarms (SMS, Video, Phone Call)
